EnviroGuard® offers the most complete line of HDPE pipe and is made from the most advanced materials in the industry. All resins are rated PE-4710 and are offered in a variety of diameters, ratio dimensions and specialty products in order to suit even the most unique applications.

SPECIALTY PIPE

ABRASION RESISTANT

Suited for demanding conditions where transferred fluids are high in abrasive solids.

UV RESISTANT

Designed with a white outer layer containing UV stabilizers that reflect sunbeams. Best used for above-ground installations exposed to sunlight.

TEMPERATURE RESISTANT

Designed for fluids transferred at high temperatures with higher standards for properties such as chemical resistance and crack propagation resistance.
