

ENVIROCLIP™ | TWIST ANCHOR

SPECIFICATIONS

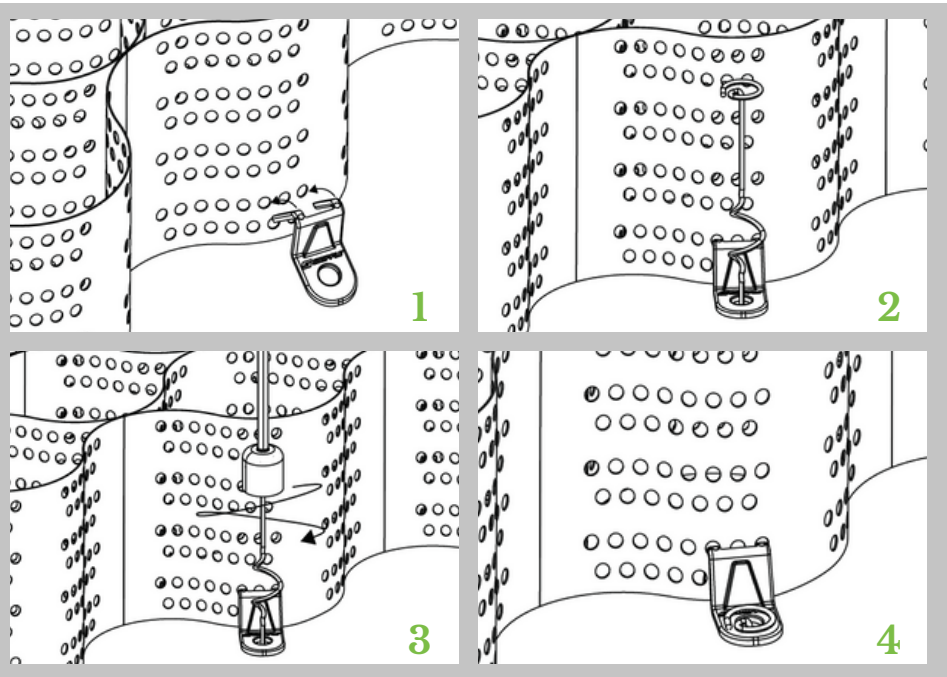

EnviroClip™ secures and enhances the performance of geocell by actively anchoring it against natural sliding forces, reducing the need for heavy anchoring and trenching.

FEATURES / BENEFITS

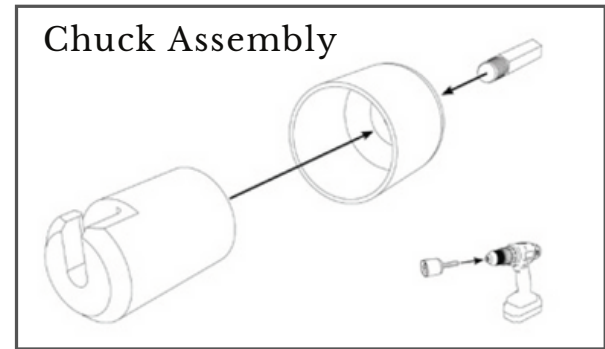

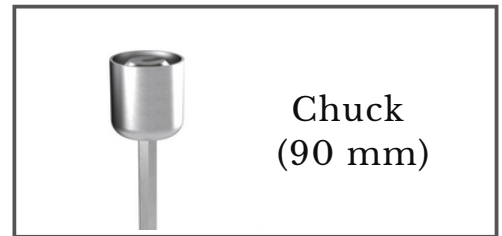

- Eliminates time and labor associated with carrying, deploying, and hammering traditional j-hooks.
- Clips into the perforated walls of the geocell.
- Superior performance when compared to traditional rebar pins including higher pull out force than traditional systems.
- Quick and easy to install with a standard electric drill.
- Can be installed to full depth without damaging geocell.
