

GEO PRODUCTS
INTEGRATED GEOSYNTHETIC SOLUTIONS
SINCE 1990

PREMIUM RESTORATIVE SOLUTIONS

GROWING OUR PRODUCT LINES *TO CULTIVATE YOUR SUCCESS*

Just as our EnviroGrid® and Grass Mesh products provide cost-effective, long-term solutions for erosion control applications, our grass seed and other restoration product offerings give distributors an additional step toward achieving complete and reliable project results.

The importance of grass seed in large, heavy civil projects goes far beyond aesthetics; it's a critical component of long-term site stability and overall environmental stewardship.
